Now Introducing...Dermaplaning

Dermaplaning is a manual, non-invasive, skin resurfacing procedure to remove the top layers of dead skin cells. This procedure is also a great alternative to waxing and depilatories because it removes the "peach fuzz" otherwise known as vellus (light) hair on the face.

Ask about it today!

**Receive a \$15 gift certificate for all product purchases totaling \$100 or more... *to be used at a later date.
